

Discussion of the Amendment

Claims 17 – 32 stand rejected under 35 USC 112. Applicant has replaced these with new claims 33- 48. The new claims are free of any R'OOH, which is as Examiner Barts pointed out the only proper structure. Applicant thanks Examiner Barts for his helpful suggestion. Clearly the products intended are esters. Applicant has amended the claims to correct the issues.

Likewise the specification has been reviewed and the clerical error corrected.

Applicant respectfully requests reconsideration of the claims as amended and indicated as allowable.

Respectfully submitted;

Anthony J. O'Lenick, Jr.
